Personal summary

I am motivated and quick to learn new technologies. I have a solid grasp of the basics of HTML, CSS, and JavaScript, and I work with WordPress and SQL. I understand responsive design and know how to use Git version control. I am looking for an opportunity to develop my skills through hands-on projects and grow as a web developer. I am detail-oriented, collaborative, and eager to learn new things.

Currently, I am looking for a 3-month internship from June to August to apply and strengthen my skills in a real work environment.
